COMMUNITY OUTREACH

Our Community Health Workers (CHWs) and Community Outreach Team are frontline public health workers who are trusted members of our community. This trusting relationship enables the workers to serve as a liaison/link/intermediary between health/social services and the community to facilitate access to services and improve the quality and cultural competence of service delivery. They also build individual and community capacity by increasing health knowledge and self-sufficiency through a range of activities such as outreach, community education, social support, and advocacy.
